

Preface

This volume contains papers presented at 2020 International Clinical & Experimental Pharmacology and Oncology Forum (ICEPOF 2020) was took place in Jeju Island, South Korea, from 25-27 August, 2020. This forum aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of clinical & experimental pharmacology and oncology. It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of clinical & experimental pharmacology and oncology.

ICEPOF 2020 is sponsored by The Academy of Engineering and Education (AEE) and technically assisted by many universities and institutes. On behalf of the organizing committee, we cordially express our appreciation to the international technical program committee and attendees of the international event. It is hoped that this international forum will be a precious opportunity for you to exchange scientific ideas, inspire new research and new contacts for closer cooperation, so we can envisage the future of a promising development of clinical & experimental pharmacology and oncology.

This year we received over 37 paper submissions and 13 high-quality papers were accepted as oral or poster presentations. Each contributed paper was rigorously peer-reviewed by reviewers who were drawn from a

large pool of technical committee members as well as other international reviewers in related fields.

We would like to thank all the authors and attendees for participating in the conference. We wish you have a stimulating and fruitful time at the conference, and memorable experience in Jeju Island, South Korea.

ICEPOF 2020 Conference Committee

August 25-27, 2020
